

Please do not allow LPFM to stomp over our K-LOVE signal.
K-LOVE (105.5, 89.1, 100.9) has been heard for years in our area.
It is an uplifting station, which brings enjoyable music and
thoughtful insights to everyone that listens.
I believe that allowing LPFM to have priority over existing
signals is just wrong! How would the FCC like it if someone
transmitted over the top of Voice of America?? Please don't
do this!
